

# **3<sup>rd</sup> EXEC/oversight meeting**

**General Status**

# PHYS

- Congratulations to Shanshan and Sangyong on finishing first project in time
- Paper writing underway
- Next step to incorporate AdS / CFT within shower (Dani Pablos starts at McGill March 21<sup>st</sup>)
- Incorporation of combined showers in hydro, mid-rapidity
- Beginning of discussions with stat group

# COMP

- Lots of code on repository
- COMP march in march!
- Integrate various codes together
- Finish simplistic media in March
- Hydro media in April
- Questions about hadronization, Rainer!

# STAT

- Integrating with PHYS group
- Shanshan travels to Duke in March
- Apply GPE on LBT and HT calculations
- Hopefully will have code in place by April

# Issues with website(s)

- Now have a website / a redmine site / a github site / an indico site !!!!!
- Thanks to one of Loren's students for the github and redmine integration
- Will soon have project management integrated with github
- Need set-up for talks and publications to be posted semi-automatically

# REU / GF / CM / SS / Workshop

- Have one REU student at OSU, need one more volunteer
- Have 2 Graduate fellowships to offer this summer (have to put on website)
- Collaboration Meeting at Columbus Aug 1
- Summer School and Workshop end of August (Lake Tahoe!)
